“ In my artwork I try to make visible God's invisible energy, that life which flows through all creation and is within everything. I aim to find new ways of expressing God's relationship with us, hoping to reveal something of the deeper meaning within all that we do and believe. Our primary relationship with God is our prayer. These images express some aspects of this. ”

Sr Mary Stephen

# Colourful **NEW** artwork

## The artist

*'I have always been called to paint and draw since an early age. I have come to understand in later life, whilst growing stronger in my Christian faith, that the arts (and for me the visual arts in particular) are inspired by, and have an aesthetic and spiritual connection with, the Divine. In the eye of the beholder, works of art can reflect the beauty and wonder of God.'*

Mike Torevell

## General Specifications

---

### Wall hanging banners, and Processional banners

- ◆ Heavy-weight 'natural-feel' close-weave 100% polyester material.
- ◆ Turned over at top and bottom to form pockets and hemmed.
- ◆ Sturdy wooden rods and end caps top and bottom.
- ◆ Gold effect hanging cord.

McCrimmon banners are reproduced, using professional dye-sublimation printing. Unlike inkjet and conventional silk screen printing, where the ink sits on the surface of the material, dye-sub inks are heat treated to a high degree and are fused into the fibres of the material which produces a very robust and hard-wearing banner.

The colours are fade resistant, under normal lighting conditions. All measurements are approximate.

Samples of material can be supplied.

Designs are not available in all shapes – see letter codes next to designs for availability.

**Wall hanging banners:** An extra depth of 12" (approx.) should be allowed for the depth of the hanging cord.

### Lectern Frontals

*As above but...*

- ◆ Adjustable gold hanging cord with cord locks instead of standard hanging cord.

### Foamex boards/signs

- ◆ Quality forex classic (rigid PVC).
- ◆ Photo quality 1080dpi resolution.
- ◆ UV-stable, waterproof
- ◆ Scratch-resistant, satin finish.
- ◆ 5mm thickness.
