to help you make simple environmentally friendly changes in your school

"You must be the change you wish to see in the world."

Mahatma Gandhi

See the Change Make the Change Live the Change

"All the scientific evidence shows that we need to care for the Earth – our common home. This is something that must involve us all, without exception. We must make adjustments to our daily routines and be careful in the choices that we make.

Be the Change is a very welcome book as it offers a wide range of practical and achievable ways in which we all can make a difference. It is my experience that it is the pupils in our schools who are showing both interest and enthusiasm in our care for the Environment and are understanding the need for personal involvement and action. It is the young who are teaching their families. This book can be a real help and the suggested activities are both enjoyable and rewarding."

Bishop John Arnold,
BISHOP OF SALFORD
